Sturla Bragason

Principal Platform & AI Engineer. Hands-on architect, methodical problem-solver, at home in code and in front of a room.

Location	Near Aarhus, Denmark
Status	Available for advisory
Stack	CNCF, polycloud, Kubernetes

For the past decade I've been the engineer my colleagues bring the hard problems to.

"I'm Winston Wolfe. I solve problems." Winston Wolfe, Pulp Fiction

Experience

`2025 - now`

Principal Platform & AI Engineer @ Aeven

Designed and built Aeven's polycloud platform, leading ~35 engineers. It runs all Aeven customers for the next decade.

`2020 - 2025`

Principal Architect, Cloud / DevOps / AI @ Devoteam

Built and deployed Azure platforms and landing zones, with HPC and AI systems on top, for Danish public-sector and research clients.

`2018 - 2020`

Senior Consultant & Infrastructure Trainer @ Omada

Deployed Omada's platform for clients and ran a monthly infrastructure course I wrote for partners.

`2017 - 2018`

Technical Consultant & Azure Specialist @ Wise

Deployed Wise's platform on Azure for clients.

How I work

I'm a platform engineer rooted in CNCF and open-source practice, vendor-neutral by default. I keep platforms lean and uncluttered, so the whole team can manage them.

Complex backlogs become small, ordered tasks. Each one leaves something concrete behind, so the team can move without me in the room.
