

Sturla Bragason.

Principal Platform & AI Engineer. Hands-on architect, methodical problem-solver, equally at home in code and in front of a room.

◆ BASED NEAR AARHUS ◆ AVAILABLE FOR ADVISORY ◆ CNCF · POLYCLOUD · KUBERNETES

"I'm Winston Wolfe. I solve problems."

WINSTON WOLFE — PULP FICTION

For the past decade I've been the engineer my colleagues bring the hard problems to.

01 /
Experience

Selected positions

2025—Now

Principal Platform & AI Engineer at Aeven

Designing Aeven's new hybrid-cloud platform with a team of engineers.

2020—2025

Principal Architect, Cloud / DevOps / AI at Devoteam

Designed Azure platforms and landing zones — with HPC and AI systems on top — for Danish public-sector and research clients.

2018—2020

Senior Consultant & Infrastructure Trainer at Omada

Deployed Omada's platform for clients and ran a monthly infrastructure course I wrote for partners.

2017—2018

Technical Consultant & Azure Specialist at Wise

Deployed Wise's platform on Azure for clients.

02 /
Approach

How I work

I'm a platform engineer rooted in CNCF and open-source practice, vendor-neutral by default. I keep platforms lean and uncluttered, so the whole

team can manage them.

Complex backlogs become small, ordered tasks. Each one leaves something concrete behind – code or a diagram – so the team can move without me in the room.
